Professional experience & Education

2004–
Freelance PHP Developer & Web Designer
Weblap.ro

In my private enterprise offer full range of web developing services: planning, designing, programming, and search engine optimization.

2005–2008
Java Developer
Evoline (evoline.ro)

I worked as a Java developer at the Siemens-owned company, Evoline Cluj where I was working on developing applications that follow and control railway traffic.

2004–2005
Java Developer
SoftWorks

I worked as a Java developer at SoftWorks, partner of Siemens, where I was principally developing applications for web.

2004–2005
Assistant

Babeş–Bolyai University, Cluj-Napoca

Subjects taught: Algorithms, Compilers and Object-oriented programming.

2003
Teacher

Brassai Sámuel High School

Teaching computer science.

2004–2005
Masters Degree

Babeş–Bolyai University, Cluj-Napoca, Faculty of Mathematics and Computer Science, Databases and Internet Commerce Specialist.

2000–2004
University Degree

Babeş–Bolyai University, Cluj-Napoca, Faculty of Mathematics and Computer Science, Computer Science Department.

1996–2000
High School

Orbán Balázs High School, Cristuru-Secuiesc, Information Technology Division.

Publications

2009–
Several articles published on the weblap.ro's blog (www.weblap.ro/blog) in the topics of computer science, internet, programming, design and search engine optimization.

2005
Cooperating with three colleagues, I published 3 course books for high school students from the 10th grade, for classes of different range of activity (Avornicului, Buzogány, Buzogány, Lukács: *Egyszerűen programozás; Egyszerűen programozás – intenzív; Egyszerűen számítástechnika*, Ábel Kiadó, 2005)

I was the publisher's professional reader of a university lecture notes (Dr. Ionescu Klára: *Bevezetés az algoritmikába*, Farkas Gyula Egyesület, Egyetemi Kiadó, Kolozsvár, 2005)

2004
We wrote lecture notes for students (Avornicului, Balogh, Buzogány, Király, Lukács: *Bevezetés a gazdasági informatikába*, Erdélyi Tankönyvtanács, 2004)

Cooperating with three colleagues, I published 4 course books for high school students from the 9th grade (Avornicului, Buzogány, Kónya, Lukács: *Egyszerűen algoritmika; Egyszerűen programozás – intenzív; Egyszerűen számítástechnika; Egyszerűen számítástechnika – szakiskola*, Ábel Kiadó, 2004)

In my final paper I developed a new distributed query language that I named DQL. The system I created executes SQL queries in all kinds of distributed database systems.

2003
Cooperating with three colleagues, I published a course book for beginner, 9-10th grade students that are not studying in information technology classes (Avornicului, Buzogány, Kónya, Lukács: *Informatika ábécé*, Ábel Kiadó, 2003).

Cooperating with three colleagues, I wrote lecture notes for students from the Faculty of Economic Sciences and Business Administration (Avornicului, Balogh, Buzogány, Lukács: *Az informatika alapjai*, Erdélyi Tankönyvtanács, 2003).

2002
Cooperating with two colleagues, I published a course book for students of 9th grade. (Avornicului, Buzogány, Lukács: *Informatika, IX. osztály*, Ábel Kiadó, 2002).

Rewards

2004
I was awarded by the Hungarian Ministry of Education to do research in the field of distributed databases in Budapest for a month.

2003
During university years I received first prize on the Transylvanian Students' Scientific Conference and I participated on the national finals.

2000
As a graduate student I received the highest reward of my high school, the Orbán Balázs Award.

1993–2000
During high school years I was awarded on a large number of contests (IT and mathematics contests on county and national levels, the National Information Technology Contest for High School Nemes Tihamér – national final, Information Technology Scientific Session etc.).
